### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to disclose a memory device comprising a memory transistor having a first terminal, a second terminal and a gate electrode, a bitline, a first select transistor connected between the first terminal and the bitline, a programming circuit for applying a first voltage to a gate electrode of the first select transistor at a first time of programming, applying a second voltage to the gate electrode of the memory transistor at the first time of programming, applying a third voltage to the gate electrode of the first select transistor at a second time of programming after the first time, applying a programming voltage to the gate electrode of the memory transistor at the second time of programming, applying a program inhibition voltage to the bitline from the first time to the second time when the memory transistor is to be prevented from programming, and applying a plurality of program promotion voltages at the second time when the memory transistor is to be programmed, wherein the first voltage is higher than the third and the program inhibition voltage, the program promotion voltages are lower than the third and program inhibition voltages, and the second voltage is lower than the programming voltage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son Dinh whose telephone number is 571-272-1868. The examiner can normally be reached on 8am-5pm.
